Interpon D2525 Stone Effect Reputations built in stone

Interpon D2525 Stone Effect powder coatings help architects transform metal surfaces, pushing the boundaries of what's possible and giving their creations a beautiful, stone-like appearance.

Available in seven different styles to ensure stunning variations in color and patination, the specialty coating has all the aesthetic qualities of Portland stone, limestone and brickwork, but without the practical challenges and cost that come with installing the real thing. Surfaces protected by Interpon D2525 Stone Effect powder coating are lighter, superdurable, and easier to handle, so you can enjoy all the benefits of nature, without taking anything from it. It means the weight of environmental responsibility is literally carried light upon your shoulders!

Designed to help architects and designers bring their imaginations to life, our powder coatings meet the needs of the most demanding minds with a shared passion for innovative thinking. For building owners who need their buildings to last and believe in sustainability.

Transparency and reliability

Building a sustainable future

The Interpon D2525 Stone Effect range is one of a family of products that is not just helping us to imagine the future; it is also protecting it. Backed by an Environmental Product Declaration (EPD), the raw materials, manufacture and transportation associated with creating Interpon D have been assessed by an independent third-party for transparent sustainability credentials.

THE INTERNATIONAL EPD® SYSTEM

Creating futures that last

You can rely on us. Our Interpon D2525 Stone Effect range delivers on its promised durability levels in terms of color retention and film integrity.

- Offering up to 25 years global warranty on the coating performance when applied by an Interpon D Approved Applicator.
- Qualicoat Class 2 certifications.
- Meets the performance requirements of AMAA 2604 and BS EN 12206.
